THE COLEMAN JOURNAL

Vol. 5 No. 25

Coleman, Alberta, Thursday, February 11, 1926

Phone 205
Requirements: Imperial
Printing of all kinds.

Price Per Copy, Five Cents

Local Branch St. John Ambulance Association Hold Annual Exams.

The Coleman branch of St. John Ambulance Association held their examinations on Sunday, February 7th, 1926, and was the largest class examined in Coleman for many years.

It might be mentioned that the Junior classes are showing good work, as will be noticed that two of the members of the Junior classes are qualifying for their Certificates.

Dr. How, of Hiltner, assisted by Wm. White and Richard Greenhalgh of Coleman, were the examining board and the following is a list of the candidates securing honours:—

For Certificates

Neil MacKinnon, James Pearson, Reginald Davis, Reginald Jones, Henry Thierbach, Adolphe Corne, John W. Evesham, James Beveridge, Percy Locke, Ellis Jones, Henry A. Frances, Alexander MacKinnon, Robert Pryde, Rufus Neil, Thomas Evesham, Robert Hulbert, Nelson Whittaker, William Wilson, Robert Wilson, William Kerr (Jr.), Nicholas Despak, Westley T. Watts, William G. Jewitt.

For Vouchers

Alexander Leitch, Reginald Windley, Hugh Dunlop, James Wilson, John MacDonald, Alexander Murr, Robert Davidson, George Ordell, William H. Garner, Arthur Kay.

For Madallions and Labels
John M. Rushton (M.), Archie MacCollock (M.), Robert Morris (M.), Granville S. Greenhalgh (M.), George Duffield (M.), Henry Parkinson (L.), James Kerr (L.), James Glendenning (L.).

Junior Certificates
Mack Hall and Fraser McLeod.

W. I. Hold First Monthly Meeting in the New Year

The regular meeting of the Women's Institute was held at the home of Mrs. A. McLeod, 4th street, on Tuesday, January 26th. The report for 1925 was read and adopted.

The following standing committees were appointed for the year:—

Child Welfare and Better Health — Mrs. A. Corbett.

Education and Better Schools — Mrs. W. Bosworth.

Legislation — Mrs. W. Johnston.

Household Economics — Mrs. Arthur Graham.

The interesting and instructive book entitled, "The Early History of Southern Alberta," which was compiled by members of the Rocky Mountain branches of the Women's Institute, are now on sale at H. C. McBurney's drug store at the low price of 25c. per copy.

The next meeting will be held at the home of Mrs. W. Fraser, 6th Street, on Tuesday, Feb. 23rd.

CARD OF THANKS

We, the undersigned, desire to convey our hearty appreciation to our fellow citizens who honored us by their support at the election on Monday, and we wish to assure you and all that this trust will not be betrayed as we as Councillors are determined to see that the best interests of the citizens of Coleman are served.

Respectfully yours,
Geo. Pattinson
S. Moore
J. Rushton
J. Moore.

THE MAIL BAG Former Coleman Girl Writes to School Pals

The following letter from a former Coleman girl, now one of our American cousins, residing in the State of Washington, will no doubt be of much interest to many junior Councillors:—

Chevelah, Wash.
Feb. 7th, 1926.
The Coleman Journal,
Editor,

Dear Sir:
Will you please publish this letter as I want all my school friends to know it. I used to live in Coleman but now I live in Washington.

Dear Friends:

I am writing you so as you can know the news I used to go to school in Coleman. Through the Coleman Journal I find out a lot of things about you all. I was looking over the average you made in your grades in The Journal. I just thought of writing you that I have received my diploma of the eighth grade. Over here we have to send in our papers to the County Superintendent to have them graded. I will give you my grades as some of you will like to know what I made.

Reading 89%, Agriculture 81%, Spelling 80%, U. S. History and Civics 80%, Writing 80%, Hygiene 89%, Arithmetic 94%, Geography 85%, Grammar 81%. My average was 84%.

I only took half way through my eighth grade books this year. Two others who were in the eighth grade two years passed. The others did not pass. There were 6 eighth grade pupils in all. It is only a country school of 28 pupils. I like the Coleman Public School far better than this one. We have a nice teacher, her name is Mrs. B. E. Monroe. Well my friends I have to say 'good by' for the time being.

Your old friend,
Rebecca Goremans,
Chevelah, Wash.
P. S. Some of you may remember me I think. I have not forgotten any of my school friends who used to go to school with me.

Truth is also harder to find than fiction.

B. P. O. E. Officers Installed Friday Last

At the regular meeting of Coleman Lodge, No. 117, B. P. O. E., held in the I. O. O. F. hall on Friday evening of last week, the following officers were duly installed by Past Exalted Ruler, Bro. A. M. Morrison:

Exalted Ruler—Bro. C. W. MacKinnon.

Leading Knight—Bro. F. J. Cole.

Royal Knight—Bro. Geo. Pattinson.

Lecturing Knight—Bro. F. Graham.

Esquire—Bro. R. G. Lowell.

Secretary—Bro. W. L. Rippon.

Treasurer—Bro. C. S. Quimette.

Chaplain—Bro. John H. Haddfield.

I. Guard—Bro. J. M. Allan.

Tyler—Bro. Robt. Wilson.

Trustees—Bro. Ed. Ledien, G. R. Powell, Robt. Jones.

Burns Re-Elected Mayor In Town's Largest Vote.

Three New Councillors and
Two Trustees Elected.

ONE BALLOT IN EVERY FOUR SPOILED

One of the most strenuous civic battles ever fought in the history of Coleman, and one that will go down in local annals as the "subterranean campaign of 1926," by reason of the fact that not one solitary candidate publicly stated what his or her platform was, resulted in five new faces appearing on the Council and School Board.

Mayoralty

Mayor W. J. Burns, seeking re-election, received an overwhelming majority over his opponent, Mr. Harry Gate. The former receiving 236 votes to the latter's 106. The confidence thus expressed in the mayor's past record is indeed well merited, as Coleman's Chief Magistrate has, during his long term of service, dealt in a creditable manner with the many important civic problems demanding solution.

New Councillors

Three new faces appear on the Council Board in Messrs Geo. Pattinson, S. Moore and J. Rushton. All three are old-time residents of The Pass and well qualified to assist in shaping the destiny of Coleman.

School Trustees

Messrs. John S. Rogers and Thos. Johnston, the two new men on the Board of Trustees, undoubtedly owe their election to the fact that they are presumably in favor of more economy in certain controllable expenses in the operation of the local schools.

As to whether the defeated members, Mrs. McLeod and Mr. MacKinnon opposing this policy, is not known owing to no public announcements of policy being made by any of the candidates for office. However, both Mrs. MacLeod and Mr. MacKinnon have given valuable service during their long term in office, and it is no way detracts from their opponent's victory to say that two very faithful and worthy members of the Board were counted out on Monday.

One in Four Disfranchised

Forty-three spoiled ballots cast in the election for Councillors and sixty-three for Trustees should be a lesson to those in authority that some educational publicity is necessary to convey instruction to voters on how to mark their ballots. When one-quarter of the citizens of Coleman entitled to have their vote recorded are disfranchised, it is quite apparent that the time has arrived when some plan must be adopted to educate our population how to vote. Coleman is lagging far behind many towns in the matter of circulating important civic news. A few dollars invested in printer's ink would be a worth while investment.

The total vote for Mayor and Councillors was 344, School Trustees 437. The vote for the various candidates follows:—

For Mayor
W. J. Burns - 236
Harry Gate - 106

For Councillors
Geo. Pattinson - 212
S. Moore - 187
J. Rushton - 186
W. Graham - 148
J. M. Allan - 132
J. Stephenson - 101
W. Vincent - 67

First four elected.

For Trustees
Geo. Pattinson - 212
S. Moore - 187
J. Rushton - 186
W. Graham - 148
J. M. Allan - 132
J. Stephenson - 101
W. Vincent - 67

First four elected.

(Continued on Page 8)

We Are Not All "Henry Fords"

Some resident of Coleman sent The Journal a clipping cut from the daily press this week which sets forth Henry Ford's method of checking a trade depression, in which he is quoted as stating that "it is good business always to raise wages and never lower them." These lines in the clipping were underscored and the party sending the clipping dared us to publish them. We accept his dare. There they are, read them.

The Journal will dare the sender of the article to start a auto manufacturing plant, pay higher wages to his employees than Mr. Ford does and sell his product for less. The Journal, along with every citizen of Coleman, eagerly awaits the day when some local genius arises in our midst who can "out-Ford" Henry.

The two lines at the bottom of the article which were not underscored read, "The right price is the price an article can steadily be sold for, and the right wage is the wage the employer can steadily pay."

Apparently even Henry Ford with all his countless millions, realizes that no individual or company could continue for any length of time to sell anything for less than it costs to manufacture or produce. It certainly would be suicidal for any lesser captain of industry than a Ford to attempt to put into practice his theory of "increasing wages and decreasing the price of the commodity produced" and sell at a loss indefinitely.

Coleman Elks to Celebrate July 1st

Coleman Elks at their meeting last week decided to hold their first annual flag day and sports on Dominion Day, Thursday, July 1st. In conjunction with this, the first of their yearly celebrations of this nature, a monster carnival will be staged in the arena during the evening on Thursday, Friday and Saturday, July 1, 2 and 3rd.

The local lodge of "Brotherhood" is out to put their first annual "mirchquake" or, in grand style and give the boys and girls as well as the adults, a real old time three day jollification. Enough said. Watch for further particulars.

CARD OF THANKS

To the Electors of Coleman:—

By one of the largest votes ever polled in the Town of Coleman, the people have again bestowed upon me the highest honor that can be given to any citizen, that of electing me as Mayor for another two years, and when I consider the splendid majority I received it gives me encouragement to do everything in my power to serve the needs of our people to the very best of my ability, and I heartily thank the citizens of Coleman for the generous support accorded me on election day.

Respectfully yours,
Wm. J. Burns

Unclaimed Estates

According to a decision of the appellate court, unclaimed estates of those dying in the province since 1921 will go to the university, all other unclaimed estates accumulating between 1905 and 1921 going to the provincial treasury. It is estimated that estates to the value of between \$75,000 and \$100,000 will be affected.

Smoking Concert Held at Coleman Branch C.W.V.A.

The Great War Veterans' Association gave an excellent smoking concert in the club rooms on Wednesday evening, January 27. While waiting for members to turn up for the concert the Band played a few selections. The concert then opened in regular form, every member rose to his feet and bowed his head for one minute in memory of comrades fallen in The Great War. The president, Comrade P. Smith, gave a short address, in which he welcomed all visiting friends, and also spoke on the welfare of the club. New executive members were also endorsed before the programme commenced.

The entire programme which followed was of unusual merit, all the numbers being encored enthusiastically. Some of the accompaniments were played by members of the Band, and some were played by Mr. I. L. Parkinson on the violin. Splendid refreshments were very much enjoyed at intervals. Owing to the mines working, the attendance was smaller than it would have been, but every member present put their heart and soul into it and enjoyed a thorough good evening.

Much credit is due to the Band for the splendid programme given by them, also the Stewards for their prompt service. A fitting speech was given by Mr. George Lewis which was warmly appreciated by all present. The programme was as follows:—

Marches, "Activity" and "Down Main Street" by the Band; Song "Comrades", P. Smith; Violin Solo "Mother McCree" H. Parkinson; Song "My Heart is With You Tonight", B. Jackson; Fox Trot "Indian Boy" by the Band; Song "A Group of Young Soldiers", B. P. Lewis; Chorus, "Pack Up Your Troubles in Your Old Kit Bag"; Song, "That Old Fashioned Mother of Mine", F. Jackson; Song, "Mother McCree", N. Davies; Selection, "The Triplets", Band; Song, "A Baby Was Born", Ike Thomas; Band Solo by B. P. Lewis and H. Parkinson; Song, "Mollie Dear a Pint of Beer", W. Warren; Cornet Solo, "Just Before The Battle Mother" and "My Old Kentucky Home", J. Pearson, Jr.; Song, "God Send You Back To Me", A. Penny; Song, "Jail Card", D. Randall; Song, "Postponed", H. Parkinson; Song, "Rocked in the Cradle of the Deep" by J. Jones. "God Save The King".

Personal and Local

The Journal has received two letters to the editor this week, the parties sending same omitting to sign. All communications of this nature must be signed by the writer. A pen name is not sufficient evidence of good faith. No letters to the editor will be published unless the name of the author appears for publication.

Mr. C. S. Quimette left Sunday night on a business trip to Edmonton.

You can't afford to look like a millionaire unless you happen to be one.

Coleman Lodge No. 117, B. P. O. Elks are giving another of their popular what drives and dances on Friday evening of this week in their hall.

G. G. Coate, M.P., for Macleod federal constituency, recently moved an amendment in the House of Commons to reduce the duty on automobiles by ten per cent.

Personal and Local.

The Ladies Auxiliary of St. Pauls United Church wish to remind the public of their "Valentine Tea" and "Agony Sale" to be held in the Club Room on Saturday, Feb. 13th. from 3.30 to 5.30 p.m.

The two trustees, Messrs. Louis Duff and W. A. Bebe, of the Blairmore School Board who advocated and put into effect a reduction in teachers' salaries last year, were returned by big majorities in the election on Monday at Blairmore.

Mrs. Thomas Flynn, Sixth street, was the hostess at an enjoyable bridge party on Saturday evening last. The honors were claimed by Mrs. D. E. MacLean and Mrs. J. Emerson, while the consolation went to Mrs. C. Graham. A delightful lunch was served by the hostess during the evening.

The provincial legislature opens at Edmonton today.

Hon. Geo. P. Smith, a former cabinet minister in the Alberta Liberal government, who was accused of stealing \$5,820 from the province, was found not guilty of the charge in Edmonton last Saturday.

Rev. D. K. Allan was a visitor to Lethbridge this week attending a meeting of the Lethbridge Presbytery of the United Church.

Calgary St. David's Society have made arrangements to hold their annual banquet on March 1st. Mr. J. Rhys Jones, G. Roberts, and David Morgan, of the Welsh Glee party, are on the program. Welcoming from all parts of the province is expected to be in attendance.

Mrs. George Pattinson, Sixth street, entertained a number of lady friends at bridge on Friday evening of last week. Mrs. D. E. MacLean and Miss G. Walker carried off the honors. A dainty lunch was served by the hostess.

Rocky Mountain Lodge, No. 86, A. F. & A. M., Blairmore, staged a very enjoyable "Fast Masters' Night" on Monday evening of this week. The following members of Summit Lodge, Coleman, attended: Messrs. W. M. Cooke, J. R. Woods, George Short, Rev. D. K. Allan, George Pattinson, A. F. Short and D. Davidson.

Mrs. J. O. C. McDonald, Third street, entertained a number of friends at bridge Wednesday evening. Mrs. Walter Bosworth, Mrs. A. F. Short and Mrs. R. K. Lillie, Blairmore, secured the honors at cards. Lunch was served by the hostess during the evening.

Owing to the scandal arising over the defalcations of former secretary-treasurer, Frank Wright, of Blairmore, Mayor A. McLeod of that town has resigned and an election is shortly to be held to fill the position.

Many a fellow is ashamed now to tell that he once took a prize at a baby show.

He is great who doesn't think he is so great.

A lot of people who started out to find the promised land are now finding, "Show Me The Way To Go Home."

Miss Lucille Nopp, of Warner, who has been the guest of Miss E. Tenney for the past few days, returned to her home on Wednesday evening of this week.

"The Lost World," one of its big film productions of the year, drew packed houses at the Palace and Grand theatres on Saturday of last week and was greatly enjoyed.

Jazz orchestra have cured more rheumatism than medicine.

COMMITTEE WILL INQUIRE INTO CUSTOMS CHARGE

Ottawa.—That there never was any secrecy regarding the giving of information to H. H. Stevens, M.P. for Vancouver, in connection with smuggling operations, is stressed in a statement given by Percy Sparks, of Ottawa, chairman of the executive committee of the Criminal Protective Association. Mr. Sparks, in fact, points out that Hon. George H. Boulton had been told by him that he was co-operating with Mr. Stevens and that he had the approval of the Criminal Protective Association. Mr. Sparks and other members of his association are prepared to appear before the committee when it is appointed, and, under oath, give information which they possess.

In continuing the debate in the house, Donald Sutherland, Conservative, South Ontario, declared his surprise that the Progressives should give the government their support on the strength of a promise from the speech from the throne to introduce legislation which the government's own supporters had opposed in the past.

He charged that during the last election "voters were transferred bodily from one constituency to another to assist the government in distress." J. J. Dennis (Liberal, Ontario) said the debate had degenerated into slurs, speeches and political propaganda. The attitude of the Opposition was contrary to logic. The Conservatives had described the decision of the court as a "discredit" but the government had sustained in its course twice within the past two weeks. Parliament had shown its preference for the government over the Tory party.

Irish Court's Bill Has Second Reading

Would Have Free State Courts Independent of British Government
Dublin.—The bill which was introduced in the Dail, January 27, by Kevin O'Higgins, vice-president and minister of justice of the Irish Free State, providing that the decision of the Irish courts shall be absolutely final, without reference to the privy council, London, has been given second reading.

"As a government, we are opposed to the retention of this remnant of the sovereign's prerogative," declared Minister of Justice O'Higgins, with reference to the privy council.

"We think it ought to be done by statute just as other prerogatives have lapsed. Let us talk of the privy council as simply a court. Without any suggestion of irreverence or indecency, we can consider it as a court of appeal and necessary court. The feeling which the Government of the Irish Free State holds with regard to this court is widely held throughout the British Commonwealth."

"This bill, which is a constitutional protest against the jurisdiction of the privy council in the Irish Free State, we hope will be effective. A House of Lords is a rich man's appeal court, but the rich man is not his poorer neighbor. 'I will break you.' This will not continue if anything we can do, either by ourselves or with the help of the other Dominions, to prevent it."

May Withdraw From Cable Pledge
Ottawa.—Hon. Charles Murphy, postmaster-general, has notified the Pacific cable board that he will recommend the withdrawal of Canada from the partnership with the United Kingdom, Australia and New Zealand, under which the Pacific cable was constructed. If the board persists in the duplication of the Pacific cable from P.I. to Canada.

Reward Capt. Fried
Paris.—Stephane Lusane, editor of the Nation, asks the government to award the Legion of Honour to Captain Fried and Chief Officer Miller, of the steamer President Roosevelt for their heroic efforts in rescuing the crew of the British freighter Antiope and also to Master-at-Arms Williams and Postswain Mate Ernest Heitman, who were drowned.

Elevator Damaged By Wind
Vancouver.—A violent windstorm did damage to the gallery of the Woodward grain elevator here. The gallery was blown off the deck, but the building was not damaged. It will take two days to repair the damage, but there will be no loss of time in receiving and shipping grain, it is stated. The damage amounts to about \$2,000.

The longest non-stop railroad run in England is 225 miles, and requires 247 minutes to complete.

W. N. U. 1615

Ask Wider Control Of Films

Too Many U. S. Pictures Says London
County Council
London.—The London County Council by a large majority adopted the recommendation its theatre and music hall committee made that the government be asked to give the council wider powers to control the moving picture films exhibited in the county of London.

The committee's report issued in December last to the provincial association of United States films and favoring the council wider powers of control, the exhibition of a certain proportion of British films.

Big Butter Shipment

New Zealand Sends 338,000 Pounds
Butter to Vancouver
Vancouver.—A total of 338,000 pounds of butter will arrive from New Zealand on the liner Aotearoa, most of which is for consumption in Vancouver.

In the first week in January an initial shipment of 8,000 boxes was landed on the liner Aotearoa, the price of the British Columbia product fell from 48 cents a pound wholesale to 44 cents.

It is not expected that there will be any further drop, going to the fact that colder weather on the prairies has reduced production there.

Votes Depends On Programme

Miss McPhillips Says People Are Misunderstanding the Situation
Ottawa.—Agnes McPhillips, M.P., has provided a good deal of copy for newspaper men. The St. Catharines Standard says: "She talked one way and voted the other. Just like a woman." She herself said in an interview: "People are misunderstanding the situation. We voted on a constitutional question. We did not give the government a vote of confidence. For my part I would not hesitate to change my vote. It depends on the programme."

Ancient Site Discovered

Market Place of Roman London Revealed By Excavators
London.—Excavations for a building at the corner of Great Church Street and Lombard Street, the busiest commercial section of London, have revealed what is believed to be the site of the forum of the Roman city of Londinium. The site was called Roman London, when the city was called Londinium.

Plans and the remains of a wall uncovered apparently fit not only the site but the boundaries of this centre of Roman commercial life.

Reveal Communist Plot

Assassination of Greek Leaders Was Planned Says Report
Athens.—The existence of a Communist plot to assassinate Premier Pangalos and other Greek leaders is understood to have been revealed by the secret of confidence with the Communist international in a semi-official report says the police arrested three Greek Communists. The police seized a printing press used for the publication of a secret Communist periodical.

May Visit Russia

Cloyd George Receives An Invitation From the Bolsheviks
London.—An invitation has been sent to Lloyd George to visit Russia. It does not come from the Bolshevik Government, but the Bolsheviks. It is said, have intimated that they would welcome his visit and would afford him an opportunity to investigate conditions in Russia.

"I shall probably go sooner or later, but not yet," was Mr. Lloyd George's comment on the invitation.

Reduce Cost of Weddings

Constitutional—Fathers of marriageable daughters have found a real relief in the government of Constantinople. He has promulgated a law restricting in great detail the expenditures allowed in connection with weddings and forbidding many of the picturesque but costly features which have been part of Turkish weddings for ages.

Would Outlaw War

Stockholm.—By the signature of a compulsory, unratified arbitration with Finland, Sweden has completed a system of agreements with all her Scandinavian neighbors for the outlawing of war. Similar treaties have been concluded with Norway and Denmark.

Will Add To Territory

Survey Has Disclosed That Ontario Has 1,500 More Miles Adjoining Manitoba

Ottawa.—As a result of surveys carried on during the past year it has been found that Ontario has approximately 1,500 square miles of territory more than previously estimated, according to the report of the land survey committee of the Association of the Dominion Land Surveyors. The report was submitted at the annual meeting here.

A survey has disclosed that the position of Island Lake, the governing point on the unurveyed boundary between the provinces of Ontario and Manitoba was 25 miles out of place. The correction of this added the 1,500 square miles to the Ontario area.

In the Northwest Territories, an exploratory trip was made across the country before visited by the white man where a lake some two hundred miles long was discovered. The report, which includes the activities of the Dominion Land Surveyors, records that a start was made on the survey of the north boundary of the province of Alberta, the line being marked by permanent monuments for a distance of 35 miles westerly from Slave River.

DAIRY PRODUCTS ARE NEEDED IN GREATER VOLUME

Regina.—Stressing the value of diversified farming in the promotion of a prosperous and contented people in Saskatchewan, Hon. C. M. Hamilton, minister of agriculture, presented the trophies and prizes won by the successful competitors in the various contests staged by the Saskatchewan Dairy Association, at the annual banquet.

R. W. Helm, president, was in the chair, and there was a record attendance of approximately 500.

A feature of the function was the presentation by the minister of agriculture of the trophies won by Chris Hansen, butter-maker for the Saskatchewan Cooperative Creameries, Regina, for first place in unskipped butter competition at the London, England, dairy show last year; and the second prize for salted butter, won by J. Jensen, butter-maker for Calders Creameries, Ltd., Carlyle branch, also.

Mr. Hamilton said it was particularly gratifying to see the producers and manufacturers gathered together in good fellowship. Both had a great deal to commend. Both were interested in production and the needs for increasing the volume of dairy products, and both parties recognized the importance of placing high quality products on the market of the world and the value of uniformity.

Professor R. M. Washburn, St. Paul, Minnesota, conveyed the greetings of the dairy producers of Minnesota. He had attended conventions in 25 states and six provinces in the last 20 years, but he congratulated Saskatchewan on having the spirit of optimism and co-operation to a greater degree than most other sections of the continent.

Darcy Scott, secretary and general counsel to the National Dairy Council of Canada, and E. N. Hopkins, Moose Jaw pioneer dairyman, also briefly addressed the gathering.

Big Test For Railways

Faced With Problem of Carrying Delegates to Eucharistic Congress
Montreal.—One of the largest special passenger traffic movements in the history of Canadian railways will take place this summer in connection with the Eucharistic Congress at Chicago. Chicago is preparing to be host to more than one million pilgrims during the congress from June 29 to July 10, and the railways will have to play in the transportation of the greater part of this huge gathering presents problems which are occupying the full time of a committee of the keenest traffic experts on the continent.

Historic Painting Finished

Tokyo.—The Japanese painter Choshi Takahashi, who has been reproducing on a scroll the historic scene of the great accession ceremonies of the present emperor, has finished his work after ten years. The scroll is 80 feet long and more than 1,000 human figures are painted on it. The scroll will be presented to Emperor and Empress.

Much Unemployment in Poland

Warsaw.—Statistics show that 300,000 workmen in Poland are out of employment. There is little hope of immediate improvement in the situation.

HOPE TO CURB SMUGGLING BY A NEW TREATY

Washington.—According to American customs officers, the new Canadian-United States smuggling treaty by providing useful to this government in tending to prevent smuggling in violation of the United States customs law. They say Canadian customs officials are showing a disposition to co-operate to prevent such violation.

Before the treaty, the Canadian officials felt themselves precluded from giving information to the United States officials which might give useful in preventing smuggling or in apprehending smugglers.

Under the treaty, it is learned, a number of useful tips have been given to United States officials from Canadian official sources and vice versa. United States officials also consider they have been useful to the Canadian authorities.

How Texas Controls Crime

Members of Police Force Are Expert Pistol Shots

San Antonio, Tex.—Down here in the shadow of the old Alamo, folks generally and to police in particular, have a reputation for being quick on the trigger. But San Antonio, with a population of more than 200,000 and a police department of 193, has not had a major robbery in five years. The remarkable absence of gunmen, safe-blowers and others of that portion of the population is accredited to the fact that there are 25 men on the force who are expert pistol shots. The remarkable force, including the marksmanship medal-winning Chief T. O. Miller, engage in pistol practice at regular intervals. It is said that if robbers were beaten on the "draw," they would have had over their weapons in disgust.

The 193 persons of the force, which includes matrons and other attaches, patrol an area of approximately fifty square miles.

Old-Time Tribunal Revived in Germany

Four Men Sentenced to Death For Murder of One

Berlin.—Four members of the so-called "Black Reichwehler" were sentenced to death in the first of a series of judgments. The members were given various terms, and five acquittal. They were accused of the murder of one Pannier, another member of the organization.

The tribunals, or "Schlichter," fourth during the Middle Ages and exercised a powerful and sometimes sinister jurisdiction in Germany. The court's only punishment was death, which was carried out on the spot.

Probe Urged On Capital Punishment

Attorney-General, Manitoba, Suggests Committee to Study Question

Winnipeg.—Appointment of a committee by the Federal Government to study the question of capital punishment made a careful and scientific analysis of the subject was suggested by Hon. R. W. Craig, attorney-general in the Manitoba Legislature. Williams Evans, lawyer, brought the question before the house and the debate lasted more than an hour. Mr. Craig said the old Mosaic law of "a tooth for a tooth" sounded ridiculous today and a "life for a life" was the only phase of it left.

Wrote Bible in Braille

London.—John Andrew Ford has been presented with a charming clock in recognition of 50 years' work as proofreader and stereotyper at the National Institute of the Blind. Mr. Ford has written the whole of the Bible in Braille by hand, a process which involved some 20,000,000 blows with a hammer.

Has Much To Learn

London.—Mr. Justice Eve, of the chancery division high court, has just discovered the existence of the saxophone. During a case the judge asked counsel: "What is a saxophone?" "It is an instrument resembling a cornet, and is used in what I understand are called jazz bands."

U. S. Sailor Killed

Havana.—One United States sailor was killed and another seriously injured during a clash between Cuban and United States naval forces. A small village near the United States naval station on Guantanamo Bay. No Cubans are reported to have been seriously injured.

Prisoners Are Released

Forty-six Unemployed Men in Calgary Are Given Liberty

Ottawa.—A group of 46 unemployed men who were arrested in Calgary and convicted on a charge of obtaining meals at a restaurant and failing to pay for them, has been ordered released. The men were sentenced to 30 days' imprisonment.

Representations on their behalf were made by J. S. Woodsworth, Labor member for North Central Winnipeg, and the Trades and Labor Congress of Calgary communicated with Hon. Ernest Lapointe, minister of justice, stating that the men were without work, which was unobtainable. The case was taken up by the clerical branch of the justice department, and the release of the men granted.

Egg Drive At Coast

An Egg a Day Campaign Helps to Beat Prices

Victoria, B.C.—An egg a day drive started by British Columbia poultrymen in an attempt to reduce the present egg glut on the Canadian market has been taken up in a grand winning of prizes, according to Hon. E. D. Barrow, minister of agriculture. "Increased public buying on the strength of low prices is having a real effect on the egg situation," Mr. Barrow said. "The campaign which the producers have been conducting to increase egg consumption is eating into the huge egg surplus which has been depressing the market. This is reflected in gradually increasing egg prices."

Substantial Prize Offered

Dancing Masters Seek Something New to Replace Fox Trot

Paris.—Europe is ready for a new dance, and dancing masters are ready to pay a goodly sum for one. The Charleston has been tried and found "not wanted." The fox trot has endured for twenty years, the one step has had its day. The tango has met with a mixed reception, but the waits apparently is to be eternal.

At the European dance congress which met at Brussels this month, a special prize of 10,000 francs will be awarded for the dance most likely to replace the fox trot in popular favor. The dance must be based on the waltz step.

EMPLOYMENT FOR BRITISH SETTLERS IS GUARANTEED

Ottawa.—A series of questions was addressed to the minister of immigration in the House by Hon. J. W. Edwards (Conservative, Frontenac-Akron) in respect to the securing of immigrants. Mr. Edwards quoted advertisements from English papers referring to guaranteed employment. Dr. Edwards asked what kind of employment was guaranteed so that Canadians in respect to the securing of immigrants.

Mr. Edwards asked what kind of employment was guaranteed so that Canadians in respect to the securing of immigrants. Mr. Edwards quoted advertisements from English papers referring to guaranteed employment. Dr. Edwards asked what kind of employment was guaranteed so that Canadians in respect to the securing of immigrants.

Wants To Make New Record

Owner of Lunch Wagon Practices For Eating Contest

Morgantown, W.Va.—After a practice session during which he devoured of cheese sandwiches, six pork chops, one large loaf of Italian bread, a dish of lettuce salad and another loaf of bread, Louis Thirlgoth, owner of a lunch wagon, has announced he will attempt the world's eating record. His tentative menu includes 12 pounds of coffee, four loaves of bread, five cups of coffee, and two dozen eggs. Police officers will referee the contest.

Rescue Damaged Sub

Key West, Fla.—The United States submarine T-3 was towed safely into port here by a tugboat but Day Springs, after having been battered about the mercy of the waves. The submarine was enroute to Key West from New London, Conn., when her fuel supply was exhausted off the Florida coast.

HEAVY STORMS WORK HAVOC ON ATLANTIC COAST

New York.—Nearly a score of deaths, property damage and partial disruption of transportation were recorded throughout the storm area.

Shipping, harried by more than a week of severe storms, suffered new disasters. Thousands of passengers on coastwise liners were snowed out of Long Island Sound where the steamers anchored to await a clearing of the atmosphere.

Two ships were reported in distress at sea, and a third, the Dutch freighter, Zail-Bomani, was wrecked, while she was burning coal from her cargo to reach port at Providence, R.I., after her bunkers had been emptied by her long battle with the storm. Three persons were killed in New York through exposure to the storm, and several others were injured in traffic accidents.

In the larger cities armies of workmen and hundreds of trucks and motor snow sweepers were put to work to keep the main thoroughfares open. In New York City this force numbered more than 15,000 men, and it was estimated that clearing the streets would total \$1,000,000.

Alberta School Trustees

Seven Hundred Delegates Attend Convention in Edmonton

Edmonton, Alta.—Seven hundred delegates from all parts of the province were in attendance at the annual convention of the Alberta School Trustees' Association. Strong hostility was shown to proposed legislation providing for the levy of three mills on the dollar on the assessed value of land in school districts which are not in town districts. Officers were re-elected by acclamation, as follows: T. C. King, Raymond, President; H. H. Herbert, Strathcona, Vice-president; H. C. Wingate, Calgary, Second vice-president.

Deciding Best Plan For Chinese Relief

British Mission Will Open An Investigation In March

Vancouver.—Lord Willingdon, chairman of the British Mission which will open an investigation in China to decide the best plan for the relief of the Chinese in future may be best applied to Chinese purposes, reached Vancouver accompanied by Lady Willingdon and sailed Feb. 8 for the East. The inquiry will begin in March. The annual British quota of the Boxer indemnity, which it has now been decided to vote to Chinese relief, amounts to £400,000.

Burned Cargo For Fuel

British Freighter Reaches Philadelphia Nineteen Days Overdue

Philadelphia.—Nineteen days overdue, after battling the gales which have been raging on the Atlantic for several weeks, the British freighter "Antiope" arrived in Philadelphia from Rotterdam, a cargo of brigquets (from Rotterdam) limped into quarantine at Marcus Hook. She was burning her cargo for fuel, her bunkers having been scraped clean during the battle with the waves, described by Captain David Duncan Milne as the worst he had ever experienced.

Keep To Facts

Howard Urges Teaching of Truth About National Heroes

New York.—Sir Ernie Howard, British ambassador, also is an advocate of teaching children the truth about national heroes, even if it disrupts legends of many years standing.

Howard, in a speech before the New England Society here approved the methods of modern historians in teaching the true facts, even though it "diminish the traditional virtues of national heroes and make former assemblages appear less monstrous than in old wives' tales."

British Debaters Beat McGill

Montreal.—Debaters from the Universities of Oxford, London and Birmingham defeated by a narrow margin the McGill team which was chosen to support the proposition that "an adequate defensive force should be established on the Pacific Coast by the Governments of the Dominions."

Russian Officials Sentenced

Leningrad.—Russian officials of the state military trust were sentenced for embezzlement of government funds. One was condemned to death, two were given ten years imprisonment, three eight years and the remainder shorter terms.

THURSDAY, FEBRUARY 21, 1925

WHAT'S WRONG WITH THE WORLD?

Rest quietly in your easy chair to night; draw the curtains about you and think. What is wrong with the world? Settle the question with yourself whether it is the tariff, the coal strike, poison booze, flappers, government, the independence of youth, divorce, the weather, the lack of vitamins, white bread, lack of vitamins, static landladies, the foreign debts, the crop outlook, or too much publicity for the ex-Kaiser. After you have decided to your own satisfaction which or how many of these things are contributing to the lack of peace and contentment of yourself and mankind, go to sleep. Arise next morning and begin your day's work with freshness and ardor. You will then wonder why you ever worried that there was anything wrong with the world. This prescription seldom fails to cure. Should it fail, however, you get your agony back.

INTEREST IN ADVERTISING.

Advertising is the romance of business. Display to attract, interest to hold the attention, sense

to appeal to the quality of judgment—all these and more are the reasons that advertising is the great force in business that it is. In the old days it was thought that all that was necessary was to display the ad so that the reader "couldn't help seeing it". This if good as far as it goes, but a pile of bricks in the road might bring the same result. What the public wants is some use for the bricks. More people are reading advertisements now than ever before in the history of business, because ad-copy is advancing in quality and interest the same as news, editorials and features. But it does not take a genius to write good advertising copy. Any intelligent business man or his neighbor's daughter can "put the right stuff into it" by continuous effort at satisfying the legitimate needs of buyers. Truth, crushed into advertising, will rise again into profits.

IN FIVE YEARS!

According to statements of students of aviation problems from a commercial standpoint, in five years time cities and towns:

Will not be "on the map" unless they have adequate landing fields for passenger and freight shipments.

Will be expected to provide facilities for air mail service, or be left behind their more progressive sister communities.

Will have cheap dinner places for the common pocket.

Will scarcely have any inhabitants who are afraid to go up in a flying machine.

Will think nothing of flying at the rate of 300 miles an hour.

Will look to aviation to solve their transportation problems as readily as they now depend upon

the automobile, the railroad and the steamship. And that will be going some—in five years!

A great automobile factory in Detroit has abolished "conferences". Here is a lesson for everyone. What the whole country needs is less conferences, investigations and propaganda, and more facts, convictions and action.

World-wide radio reception will bring about a universal language sooner than all the conferences of the philologists. This will bring understanding, and understanding makes for peace.

If there's anything in words the public, as well as labor and capital, is always bound to be hit by a strike.

How to become famous: change your name so it will fit nicely into headlines.

A lot of our ministers ought to practise before as well as what they preach.

Italian earthquakes are caused by Mussolini pounding his fist on the desk.

Many of the advertisements we read are interesting if not true.

They can stretch the price of rubber but it will come back.

Wives read the fashion notes and their husbands pay them

Plate Depicts Discovery of Indian Sea Passage

A magnificent silver dish, twenty inches in diameter, presented by King Emmanuel of Portugal to the famous explorer Vasco da Gama in 1499 in recognition of the latter's discovery of the sea route to India was recently on exhibition in the windows of the downtown offices of the Canadian Pacific Railway on St. James street. The dish is now owned by Rene Dupuis, graduate of the University of Nancy, France, a resident of Montreal.

The dish is circular with a wide border and is a beautiful specimen of the most exquisite repousse work of the celebrated European silversmiths. In the centre is admirably depicted in practically every detail the quaint old ship, the San Gabriel, which was Da Gama's flagship on his famous voyage to India.

Around the figure of the ship are striking impressions of wild beasts and flowers. On a raised border of river around the vessel are two inscriptions, barely visible to the eye. The first reads "Emmanuel le Grand to Vasco da Gama, 1499". The second inscription is: "Marquis Nissac da Gama to M. Anne Dupuis, Commandant du Cygne, 1846". The second inscription was placed there when the relic was given to Commandant Dupuis for saving the life of the Marquis, a descendant of da Gama.

Vasco da Gama was called to the expedition to discover a sea passage to the Indies. He was given the following instructions by his king: "Go south as far as there is water. And when you have reached the edge of the world, turn towards India which we know exists because we have made land journeys there." On July 8, 1497 a belated, powerful figure

stood on board a vessel waving adieu to Lisbon. Determination was depicted in the powerful jaws. An iron will was evident in the steel-grey eyes. Every motion, every movement this mighty man made told of his high resolve to do as he had been commissioned by his king.

The San Gabriel rounded the Cape of Good Hope after da Gama had quelled a mutiny of his rebellious sailors, and reached the coast of Malabar, the south-west corner of India in May 1498. On September 1, 1499 the vessel sailed proudly into Lisbon to the accompaniment of loud shouts from the huge crowd assembled to greet her and the heroic commander. It was in that year that da Gama was awarded the historic silver dish by a grateful monarch as an expression of esteem and regard from an admiring court and a thankful nation.

Da Gama made another voyage to India in 1502, planting Portuguese colonies at Mozambique and other places, and returned in 1503 with a rich cargo. For this work he was awarded a title and appointed admiral of the Portuguese navy. Some twenty-one years later he made his last voyage to India. He fell ill on the way, died in Cochin, Indo-China, and was buried on the Malabar coast where he had owed to submission a cruel crew of mutineers twenty-six years before. But the gallant admiral's friends would not let his body remain in foreign soil. So it was brought back to Portugal and buried in 1538 with all the honor and homage due a national hero.

It is interesting to note that a Canadian Pacific liner, the Empress of Scotland, is at present sailing around India through the very waters which Vasco da Gama was the first European to traverse.

The Horse Breeding Industry In More Promising Condition Now Than For Many Years

"Conditions in the horse breeding industry are better and more promising than they have been for years," was the hopeful message given by Robert Thomas, president of the Saskatchewan Horse Breeders' Association, at the annual meeting at Saskatoon. Mr. Thomas said that there had been a far greater advance in the price of good horses than farmers who had rather bought nor sold horses realized. He had attended a recent horse sale at Saskatoon and believed that the price of good horses averaged fully \$40 more per head than in the price of good horses that farmers prevailing prices a couple of years ago.

Speaking on the changing conditions in the horse industry in Canada, J. M. McAllum, chief of the markets division, Hresch branch, Ottawa, said that Ontario is no longer the great supply center for horses, as breeding had fallen off very greatly in that province, and it is doubtful whether Ontario is supplying its own wastage. Figures for the past three years showed shipments to Eastern Canada from the west amounting to 30,000 horses in 1923; 17,413 in 1924; and 17,000 in 1925. Besides this, quite a number of western horses have found a market in British Columbia.

"The fact that some 80 horse breeding clubs in Saskatchewan and some 30 in Manitoba were organized last year indicates that the greatest activity in horse breeding in the Dominion is found in the prairie provinces," Mr. McAllum stated.

"Regarding the market for commercial horses, we may just as well state the fact that the market is not so hot as it was a few years ago, and that the farmer who is anxious to make a profit from his horse-breeding operations must study that market and direct his efforts to producing only those kinds which can be advantageously used on the farm, and for which, when offered for sale, there is a ready demand."

Farmers will apparently continue to depend on horses for supplying farm power and breeders should raise horses with a view to supplying the city demand for road, big sound drafters, as big as it is possible to get them, and to supply the demand both east and west for good big agricultural horses combining size, quality and action.

The return to the increased use of horses on the farms of Canada both east and west since the close of the Great War to secure greater production, is a fairly conclusive indication that the tractor and the motor truck are not going to supplant with the use of horses.

Truck Farm In New York

Prisoners Work 600 Acres On Island in East
New York City, not usually thought of as an agricultural community, has within its boundaries at least one good-sized truck farm. The farm is located on Rikers Island in the west end of the city, and is under the commission of prisoners made public, its operation is credited to workhouse prisoners and drug addicts. Ten horses on the island assist the prisoners in their work on the farm, and the institution. The land on which the farm is located is for the most part refuse by the island has been increased from thirty-three to approximately 640 acres since its purchase by the city in 1884.

Tree Seed For Britain

Lodgepole Pine and Spruce Seed Being Sent From Alberta and B.C.
The seed extraction plant of the Dominion forestry branch at Rocky Mountain House is now working on seed for Canadian tree seed from Great Britain. Lodgepole pine and spruce seed is being prepared at the plant, while other varieties of tree seed will be prepared at the New Westminster plant. Approximately 600 pounds of lodgepole pine seed and 150 pounds of spruce seed will be prepared at the Alberta plant.

Industrial Winpign

Further progress has been made in the industrial development campaign being carried on at Winpign. Flaxseed and industrial men interested in the construction of a sugar mill, woolen factory and a plant for iron and steel small ware, have been visitors to the city, and certain definite announcements from them are expected at an early date.

Our idea of an ecologist is the man who thinks his wife ought to call him "colony" just because he parts his hair with military brushes.

Clearing Off Farm Debts

Did Not Particularly Worry Saskatchewan Agriculturists Last Season

One of the biggest worries in the life of Mr. Average Farmer along about threshing time, says The Regina Leader "is the question of paying up the current year's interest on the little old mortgage and perhaps a little bit of the principal."

"This has not been one of the worries of the Saskatchewan agriculturist during the present crop-year season. On the contrary many a farmer has lifted his soil and rapped his barn to visit such good purpose that not only has he been able this winter to pay up principal as well as overdue interest, but to wipe out his loan entirely. On some farmers the sun has shone so successfully during the past season that they are now importing the loan company to allow them to pay off instalments not yet due."

Alfalfa Growing Centre

Red Deer Valley In Alberta Is Leading Centre For Alfalfa on the Continent

The Red Deer valley in the alfalfa growing centre of the North American continent, as foreseen by leading agriculturists of Northwestern Minnesota, North Dakota and Manitoba gathered in convention at Red River Falls, Minnesota. Peculiar soil qualities which prevent the "freezing out" of alfalfa during the territory for permanent alfalfa growing, Prof. J. R. Ellis, of the field husbandry department of the Manitoba Agricultural College, declared.

Surplus Farm Products

Total of Nearly Three Hundred Millions Was Value of Surplus Products in Saskatchewan

On a very conservative estimate, the farmer of Saskatchewan would receive from the sale of their surplus farm products in 1925 a total of \$255,210,225, compared with only \$195,247,220, or an increase of \$59,963,000 over the previous year, according to Premier Manning. He further pointed out that the estimate was made on such a conservative basis that the actual figures in his opinion, would be nearer \$100,000,000 greater than the figure given.

Fox Farming in Alberta

Alberta's assumed importance as a fox farm in Canada. The industry has grown tremendously in this province in the last five years. D. W. Trotter, winner of seed sets prizes at the International Show in Chicago, is the latest to start fox farming. He bought some of the winners at Vancouver show for his Calgary farm.

World's Largest Book

What is claimed to be the largest book in the world is being exhibited in a Dominican Church, Vienna. The volume dates from 1755, is of wood, with 34 pages, weighing in all 250 pounds. It contains the names of all local Dominican monks since 1410.

Maps For the Farmer

Their Value in Solving His Transportation Problems

That topographical maps are entering more and more into the daily life of Canadian citizens in all walks of life is evident by a recent example of the value of one of these maps to farmers. A proposition was on foot to drain a large lake in Alberta and use the lake bed for the production of hay. The question arose as to the cost of hauling hay to the nearest railway station, and the map was consulted regarding the distance and feasibility of opening up a road through new country. The contours on the map indicated a hill intervening along the shortest route, and aroused a discussion as to the relative merits of hauling hay over or around the hill. In the latter case the road would be considerably longer, but steep grades would be eliminated.

The conclusion to be drawn from this example is that maps are not alone for the engineer, but that they are both readily intelligible and useful to all. The map in question was one of the sheets of the sectional map of Canada published by the topographical survey, department of the interior, Ottawa.

High Grade Western Coal

Claims Alberta Coal Is Equal To Anthracite

Jose R. Gouge, Alberta coal operator, told the engineering institute convention at Toronto, that Ontario would have the anthracite problem in five years. "You may theorize as much as you please about hot units," he said, "but you must bear in mind it is not a case so much of what is in coal, as what can be got out of it. The Alberta coal has every feature of anthracite."

Mr. Gouge was replying to statements made by L. R. Thomson, of Montreal, regarding shipment of Alberta coal to Eastern Canada. Mr. Thomson had said that possibilities of shipment of Alberta coal east, under present conditions, was more of a "political rallying cry" than a serious economic proposal.

Raymond Sugar Factory

Southern Alberta Stockmen Fattening Cattle and Stock at the Factory

Direct pulp from the sugar factory at Raymond is being used as a basic feed for fattening stock, and from present indications, Raymond will become a great stock feeding centre. All been grown are hauling it daily and feeding it to livestock. A number of prominent Southern Alberta stockmen are fattening cattle and sheep at the factory, and the Raymond School of Agriculture is undertaking extensive experiments with the pulp in the fattening of both cattle and sheep.

British Settlers Coming

One thousand British settlers are leaving the Old Country in April for the new Dominion of Canada, according to an announcement by the soldiers' settlement board.

Does Not Believe In Any Plan That Would Wipe Out Old Established Banking Systems

Violet Rays and Poultry

University of Wisconsin Claim Better Egg Production With Artificial Light

The ultra-violet ray, already employed probably by medical men to heal human ills, is being used at the University of Wisconsin to produce "more and better" eggs and chickens.

Nearby, times as many eggs can be produced by action of the ray, the departments of agricultural, chemistry and poultry has found.

Heavier shells in irradiated pens also increased marketability of eggs, and greater hatchability resulted. The ultra-violet light was found to cure fowls suffering from rickets.

January 1, 1925, four groups of pedigreed Leghorns were put on similar rations in identically arranged pens without natural light. The pens were artificially lighted during daylight hours.

Two groups were subjected to ultra-violet radiation. When the eggs were collected two or three times as many eggs were found in the irradiated pens as in the ordinarily lighted houses. Egg production began to increase markedly within eight days after ultra-violet light was applied.

Sanctuary in the Rockies

Jasper Park Is Largest Animal and Bird Reservation of its Kind

The story of a remarkable increase in wild life in Jasper National Park, Alberta, under the policy of animal and bird conservation being pursued by the government, is told in a statement issued by C. S. Maynard Rogers, superintendent of the park. Animals and birds which were unknown to the park area a year ago have taken up their abodes there and are flourishing even though the environment is entirely alien to that to which they have been accustomed in the past. As instances of this he cites the presence of moose and prairie chicken.

Jasper National Park, which with an area in excess of 4,400 square miles, is the largest national playground in the world, is also the largest animal and bird reservation of its kind. Efforts to preserve it with wild life which had been depleted by warlike killing were begun as soon as the reservation was formed, but the work has only been systematically developed during the past few years.

A Cheap Fire Engine

Freisingland, in Shiflo, has acquired a fire engine for 45c, the cost of a telegram and a confirmatory letter. A firm in the country advertised that it had no further use for the engine, and offered to give it to the first person applicant.

Strong Advice Against Any Plan

in revolutionizing the present financial system, was tendered by Professor C. R. Fay, University of Toronto, discussing rural credit at the Saskatchewan Grain Growers' Association convention at Saskatoon.

The existing system might have its faults, but it would not be advisable to make any changes unless every step had previously been fully studied and the effects of the proposed action taken into consideration, he said.

"I do not believe in any system that would wipe out the old established banking systems used at the present time," the speaker declared. "This is probably not exactly what you would expect me to say, but it is my honest opinion."

"One attitude in improving the present system should not be one of revolution. We should make sure that any changes we propose to make are logical, and then put them into effect by gradual stages."

The speaker somewhat surprised the audience when he said that he did not believe that the banks had deliberately set out in any way to exploit the farmers used at the present time. The speaker declared that the most of the bankers were doing their utmost to oblige the farmers and were giving loans consistent with the security available.

Growth On Irrigated Land

Figures From United Irrigation District in Alberta

The United Irrigation District in Alberta has completed its second year of actual operation and dears now obtainable show that irrigation is successful in materially increasing the yields of all grains and field crops. It is estimated that wheat grown on summer-fallow and irrigated land will yield about 45 bushels an acre; wheat grown on spring ploughing and irrigated, 20 to 25 bushels per acre; while wheat grown on unirrigated land will range between 10 to 20 bushels to the acre. Oats, barley and other coarse grains show a corresponding increase in yields of irrigated areas.

Agricultural crops produced in the Central Pacific Lehighbridge irrigation district during 1925 had a value of \$2,075,750, representing the production of 55,088 acres. The gross revenue per acre was \$35.73, an increase of \$5.20 per acre over 1924.

Sugar Plant For Manitoba

Expected That a Big Plant Will Be Erected in 1926

As a result of negotiations which have been under way for some time, members of the Manitoba industrial development board state that they are confident of the erection of a sugar manufacturing plant during 1926. The board, in co-operation with the Agricultural College, has carried out successfully tests of growing sugar beets in 160 Manitoba points. Analysis of the beets shows that the average sugar content is 15.4, with an apparent purity of 84.33 on a calculated basis, per acre of 13.48.

Saskatchewan Watermelons

Very Fine Type of Both Muskmelon and Watermelon Grown

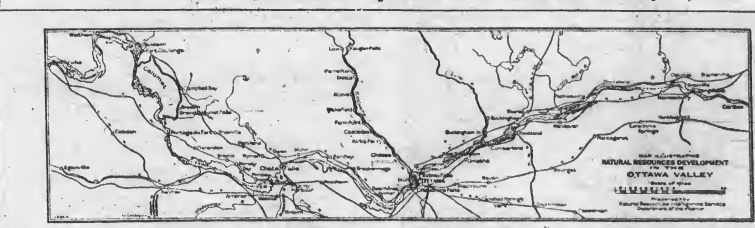

Experiments carried out over a number of years by the Mowchenko Brothers, of Ardill, Saskatchewan, in the growing of selected seed and crossing one variety with another, has resulted in the production of a very fine type of watermelon and muskmelon, which can be grown successfully any season in this province. Experiments along these lines have been carried out in the irrigated section of Southern Alberta during recent years and have been comparatively successful.

B.C. Coal Industry

British Columbia could produce approximately half a million tons of coal more in 1925 than in 1924, according to figures compiled by the provincial mines department.

When one woman wants to say something mean of another she is liable to her as "that woman."

Natural Resources Development In The Ottawa Valley

One of Canada's industrial areas, that is heavily endowed with natural resources, and one that is destined to become more important in the near future, is the Ottawa Valley. The Ottawa Valley provides a number of excellent waterpower sites, some of which have already been developed, while others are contemplated in the near future. This available power has been the subject of many outstanding industries; see the natural resources intelligence service of the department of the interior.

The forest industries are probably the most important feature of the Ottawa Valley, and the cheap abundant power available is attracting many large plants. The International Paper Co., is engaged in the construction of a large pulp and paper mill at East Templeton, on the Ottawa River, and a hydro-electric plant at Chelsea, on the Gatineau River. At Chelsea, the plant will produce pulp and paper mills of the J. B. Booth Co. and the pulp mill of the International Paper Co. Directly opposite to the plant is the large pulp and other mills of the E. B. Eddy Company, while at Hawkesbury the International Paper Co. have

extensive pulp mills. Large lumber mills are located at several points along the river, particularly at Pembroke, Ottawa, Rockland and Hawkesbury. The Sinker Sewing Machine Company is undertaking a hardwood development north of Thurso and is erecting a factory at the latter place to prepare all the woodwork for its several plants.

In what may be termed the industrial area of the Ottawa River, power has been developed at Hawkesbury, Ottawa and Bryson, while there are many other sites available. It is reported that the waterpower at the Chateaux Falls, on the Ottawa River, and the Paigan Falls on the Gatineau River, will shortly be developed, while the Carleton Rapids power site is also being considered. At Chelsea, on the Ottawa River, the International Paper Company is constructing a large power plant. The Ontario Hydro-Electric Commission is obtaining data preliminary to development of Ottawa River power sites with the object of providing additional power to Eastern Ontario.

The Ottawa Valley contains a large variety of minerals, and while a num-

ber of excellent producing mines are in operation, some of which are reported to be the largest in America, there would appear to be splendid opportunities for greater development. On the Chateaux River, near Chelsea, is located the lead mine of the Kingston Mining and Smelting Company, the largest lead producer in Eastern Canada. A few miles north of Quyon is the Moss River mine, which during the war became the world's leading individual producer.

The Black Donald graphite mine, said to be the largest and richest deposit of fako graphite known in America, is located at Calabogie, in Renfrew county.

The feldspar deposits of the Buckingham district are among the most important in Canada, and the quality is said to be of the highest.

The Ottawa Valley is the centre of the mica mining industry in Canada. The chief producing areas are in the territory which each reach of the city, although the largest mica mine in Canada, and probably the world, is located in Frontenac county, Ontario.

The largest deposit of magnetite

yet discovered in the North American continent is in the Grenville district, between Ottawa and Montreal. During the war the magnetite from this area met with a good market, due to the fact that Austrian magnetite was not available. The large users of this mineral in the United States, however, are reported to be financially interested in the Austrian deposits, and though the latter is said to be inferior to the Canadian magnetite, Canada has not been successful in any great extent in meeting Austrian competition.

At Deseronto is situated the refining plant of the late British American Nickel Company, where the concentrates from the mines and smelters of the company at Sudbury, Ontario, were refined.

One of the industrial areas, the Ottawa Valley is rapidly making progress. Many and varied industries are taking advantage of its natural resources, and with ample railway facilities and the further development of the water powers of the Ottawa River and its tributaries, some of which may be expected at an early date, it would seem that a bright future awaits the district.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

SYNOPSIS.

Barre, the wolf-dog, and McTaggart, the trapper, were at war. Hundreds of old, each now devoted himself to making his own way in the world as best he could. Barre continued to strip McTaggart's game-traps of their food, instinctively avoiding the poison which the treacherous man had spread for him. Then McTaggart, through a deadly wolf-trap through which the dog would have to reach to procure his bait.

CHAPTER XXVI.—Continued.

Seven inches of snow fell that night, and the whole world seemed turned into a wonderful white robe. Like billows of feathers the snow hung to the trees and shrubs; it gave tall white caps to the rocks, and underfoot it was as light that a cat might step from the hand sank to the bottom of it. Barre was on the trap-line early. He was more cautious this morning, for there was no longer the scent or snow of the track of McTaggart to guide him. He struck the first trap about halfway between Lac Paln and the shack in which the Factor was waiting. It was sprung, and there was no bait. Trap after trap he visited, and all of them he found sprung, and all without bait. He sniffed the air suspiciously, arriving finally to catch the tang of smoke, a whiff of the man's smell. Along toward noon he came to the "nest"—the twelve treacherous traps waiting for him with caping jaws half a foot under the blanket of snow. For a full minute he stood well outside the danger line, sniffing the air, and listening. Then he saw the rabbit, and his jaws closed with a hungry click. He moved a step nearer. Still he was suspicious—for some strange and inexplicable reason he sensed danger. Anxiously he came to it with his nose two inches from his ears. And all about him there was a great silence and a great peace. His jaws clicked again. "He whined softly. What was it ailing him? Where was the danger he could

neither see nor smell? Slowly he crept about the trap-house; three times he crept round it, each circle drawing him a little nearer—until at last his feet almost touched the outer edge of the trap. Another minute he stood still; his ears flattened; in spite of the rich aroma of the rabbit in his nostrils something was drawing him away. In another moment he would have gone, but they came suddenly, and from directly behind the trap-house—a fierce little rattling squeak, and the next instant Barre saw an ermine whiter than the snow tearing hungrily at the flesh of the rabbit. He forgot his strange promotion of danger. He growled fiercely, but his plucky little rival did not budge from his seat.

And then he sprang straight into the "nest" that Bush McTaggart had made for him.

CHAPTER XXVII.

The next morning Bush McTaggart heard the clanking of a chain when he was still a good quarter of a mile from the "nest." Was it a lynx? Was it a bobcat?—Was it a wolf or a fox? Or was it Barre? He half ran the rest of the distance, and at last he came to where he could see, and his heart leaped into his throat when he saw the big, black, shaggy creature, his eyes fixed on him, his jaws clanking. He approached, holding his rifle ready to fire if by any chance the dog should free himself.

"When he saw McTaggart he made a lunge to his feet, almost instantly."

Barre lay on his side, panting from exhaustion and quivering with pain. A hoarse cry of exultation burst from McTaggart's lips as he drew nearer and looked at the snow. It was packed and hard for many feet about the trap-house, where Barre had struggled, and it was red with blood. The blood had come mostly from Barre's jaws. They were dripping now as he glared at his enemy. The steel jaws hidden under the snow had done his merciless work well. One of his forefeet was caught well up toward the first joint; both hind feet were caught, a fourth trap had closed on his flank, and in tearing his jaws loose he had pulled off a patch of skin half as big as McTaggart's hand. The snow told the story of his desperate fight all through the night; his bleeding jaws showed how vainly he had tried to break the ironing steel with his teeth. He was panting. His eyes were bloodshot. But even now, after all his hours of agony, neither his spirit nor his courage was broken. When he saw McTaggart he made a lunge at his feet, almost instantly crumpling down into the snow again. But his forefeet were

braced. His head and chest remained up, and the snarl that came from his throat was fierce in its ferocity. Here, at last—no more than a dozen feet from him—was the one thing in all the world that he hated more than he hated the wolf heaped. And again he was helpless, as he was helpless that other time in the rabbit snarl. The fierceness of his snarl did not disturb Bush McTaggart now. He saw how utterly the other was at his mercy, and with an exultant laugh he leaned his rifle against a tree, pulled off his mitts, and began loading his pipe. This was the triumph he had looked forward to, the torture he had waited for. In his soul there was a hatred as deadly as Barre's, the hatred that a man might have for a man. He had expected to send a bullet through the dog. But this was better—to watch him dying by inches, to taunt him as he would have taunted a human, to walk about him so that he could hear the click of the trap and see the fresh blood drip as Barre twisted his tortured legs and body to keep feeling him. It was a splendid vengeance. He was so engrossed in that he did not hear the approach of snowdrifts behind him. It was a voice—a man's voice—that turned him round suddenly.

The man was a stranger, and he was younger than McTaggart by ten years, at least he looked so—no more than thirty-five or six, even with the short growth of blond beard he wore. He was of that sort that the average man would like, at a glance; boyish, and yet a man; with clear eyes that looked out frankly from under the rim of this fur cap, a form like an Indian's, and a face altogether that did not bear the hard lines of the wilderness. Yet McTaggart, who had heard him speak that this man was of the wilderness, that he was heart-and-soul a part of it. His cap was fisher-skin. He wore a windproof coat of softly tanned animal skin, boots of the same with a long shaft, and Indian leggings. The inside of the coat was furred. He was travelling on the long, slender bush-country snowshoes; his pack, strapped over the shoulders, was small and compact; he was carrying his rifle in a cloth jacket. And from cap to snowshoe he was travel-worn. McTaggart, at a guess, would have said he had travelled a thousand miles in the last few weeks. It was not this thought that sent the stranger and chilling fear up his back, but the sudden fear that in some way a whisper of the truth might have found its way down into the south of the truth of that had happened on the Gray Loon—and that this travel-worn stranger wore under his fisher-skin coat the badge of the Royal Northwest Mounted Police. For that instant it was almost a terror that possessed him, and he stood mute.

The stranger had uttered only an amazed exclamation before. Now he said, with his eyes on Barre, "God save us, that you've got the poor devil in a right proper mess, haven't you?"

There was something in the voice that reassured McTaggart. It was not a suspicious voice, and he saw that the stranger was more interested in the captured animal than in himself. He drew a deep breath. "A trap robber," he said. The stranger was staring still more closely at Barre. He thrust his stick down in the snow and drew nearer to him. "God save us again—a dog!" he exclaimed.

From behind, McTaggart was watching the man with the eyes of a ferret. "Yes, a dog," he answered. "A wild dog, half wolf at least. He's robbed me of a thousand dollars' worth of fur this winter."

The stranger squatted himself before Barre, with his lightning hands resting on his knees, and his white teeth gleaming in a half smile. "You poor devil!" he said sympathetically. "So you're a trap robber, are you? An outlaw? And—the Police have got you! And—God save us!"

Barre lay on his side, panting from exhaustion and quivering with pain. A hoarse cry of exultation burst from McTaggart's lips as he drew nearer and looked at the snow. It was packed and hard for many feet about the trap-house, where Barre had struggled, and it was red with blood. The blood had come mostly from Barre's jaws. They were dripping now as he glared at his enemy. The steel jaws hidden under the snow had done his merciless work well. One of his forefeet was caught well up toward the first joint; both hind feet were caught, a fourth trap had closed on his flank, and in tearing his jaws loose he had pulled off a patch of skin half as big as McTaggart's hand. The snow told the story of his desperate fight all through the night; his bleeding jaws showed how vainly he had tried to break the ironing steel with his teeth. He was panting. His eyes were bloodshot. But even now, after all his hours of agony, neither his spirit nor his courage was broken. When he saw McTaggart he made a lunge at his feet, almost instantly crumpling down into the snow again. But his forefeet were

High Temperature In Well

Record Temperature of 208 Degrees at 6,500 Feet Below the Surface
C. E. Van Orstrand, of the United States geological survey, has recorded a temperature of 208 degrees Fahrenheit at a place 6,500 feet below the surface in a well in Longmont, Col. The well was the hottest ever tested by the surveying party. Mr. Van Orstrand said the well would have found greater heat had he gone down 7,500 feet, but the capacity of his instruments had about been reached at the 6,500 foot level. The next hot test well on record is at Palmdale, West Virginia, where at a depth of 7,500 feet the temperature was recorded at 170 degrees Fahrenheit.

BABY'S WELFARE DURING FEBRUARY

Should Be Most Carefully Guarded By All Mothers

February is one of the hardest months of the year on little ones. It is a month of cold, hungry days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the home. More often than not the rooms are overheated and badly ventilated, and the little one catches cold or gripe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and prevent or break up colds and gripe. Such a laxative is found in Baby's Own Tablets, which are mild but powerful in action; are absolutely safe and they are guaranteed to contain neither well-habits or the growing child. They never fail to be of benefit to little ones and may be given to either the well-babe or the growing child. Baby's Own Tablets are sold by all dealers in medicine or may be had by mail post paid, at 22 cents a box from "The Dr. Williams' Medicine Co., Brockville, Ont."

Trusted Snake Too Far

Jap Medicine Man Dies From Bite of Pet Serpent

Koguna Chu, who sold snake medicine for a living, engaged in a biting match recently with a pet serpent which he was in the habit of using in a snake charming show that formed a part of his medical entourage. Chu was demonstrating upon that friendly form he was with snakes, in the course of the demonstration putting the serpent's head in his own mouth. The snake, angered at something Chu in the tongue. Both man and serpent died the next day.

It Bids Pain Begone.—When neuralgia racks the nerves, or lumbago grates the back, is this time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and procure a sensation of ease and rest. A trial of it will establish faith in it.

Increased Duty On Bananas

The new West Indies Treaty, which has not yet been proclaimed by the Dominion Government, adds a duty of 50 cents a stem on all bananas brought into Canada from countries outside of the British West Indies. All bananas brought into Winnipeg and Western Canada come from Central America. When the treaty goes into effect an additional cost of \$50,000 will be added to consumers of bananas, as the average is 1,000 cars season for Western Canada.—Free Press.

"Clara," said a waiter to the minister's little daughter, "does your father ever preach the same sermon twice?"

"Yes," I think he does," answered Clara, "but he talks loud and soft in different parts the second time, so it doesn't sound the same at all to an outsider."

A Scottish Tag Day

Citizens Know When To Stay In And Go Out

The other evening when Noel Coward was swamping Scotland with Mrs. Nashmore and several other stars who had dropped into his dressing room, the celebrated Russian tragedienne told this story:

An Irishman (traveler) arrived in a small Scotch town one afternoon and, noting the almost depopulated streets asked the stationmaster what had become of all the inhabitants. "Well, mon, today be tag day," was that worthy's pointed reply. Some weeks later the Englishman paid another visit to the same place and on this occasion found the streets swarming with people, as if some festive celebration was under way. Looking up his previous informant, he remarked to him upon the phenomena of a village that is deserted one day and over-populated another.

"I'll tell ya," volunteered the of-ficious Scotoman. "Ya recall the tag day we had here last fortnight? Well, it was a failure, so the charity committee decided to make a house to house call for money. And today they're making their canvass."—New York Evening World.

English Is Taught

In Swedish Schools

Since War It Has Become Most Popular Foreign Language

German was the most popular foreign language in Stockholm before and during the world war. Now English is more popular. It is the first foreign language taught in Sweden's public schools. Every week English courses are given over the radio. It is the only language so taught.

At the recent Stockholm church conference the King opened the proceedings in English, the American and British delegates forming the majority of the conference. This act of courtesy was greatly appreciated.

Occasionally, for special purposes, the newspapers issue English pages or supplements.

Recognized as a leading source for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Little Helps For This Week

Work out your own salvation. Phil. 11, 12.

And so I live, you see. Go through the world, try, prove, reject.

Prefer still struggling to effect My warfare; happy that I can be crossed and thwarted as a man. Nor left in God's contempt apart; With hearty smooth life, dead at heart.

Faint is death's paddock as her prize; Thank God no paradise stand barred To entry.

The religion of Jesus Christ is altogether a practical thing. Just consider how we are taught anything else that is practical. It is not by hearing or reading about Jesus, but by trying to make them—Augustus Hare.

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run down and could hardly get around to my house-work. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles, I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it good. But I owe my health to the Vegetable Compound. I think if more of it was used women would be better off. I would not be without it if it cost much more." Mrs. NELLIE HORN, 28 St. Matthews Avenue, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is the only remedy to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition.

Soothe Itching Skin With Cuticura

Baths with Cuticura Soap and hot water and follow with a gentle application of Cuticura Ointment. This treatment not only soothes but in most cases heals.

Lady Byng Inspired by Rockies

His Excellency sets out for his morning ride from Banff station

Lady Byng gazing on the famous Banff course

Her Excellency, Lady Byng

"No one has any right to speak with authority of Canada who has seen only the East or the West."

It was Her Excellency the Lady Byng of Vimy who made this statement recently at a luncheon of the Ottawa Women's Canadian Club shortly after her return from a trip across and through Canada over a matter of some eighty thousand miles. Accompanying His Excellency the Governor General, Lady Byng had visited practically all parts of Canada meeting at every stopping place the warm welcome Canadians everywhere reserve for "Byng of Vimy" and his charming Lady and, not less important, becoming acquainted with Canada's unvarnished and never-ending succession of scenic stories.

"I feel I have some plea to come speak to you on Canada," said Her Excellency. "I come as a sort of advertising agent to beg of you that you go west and visit there. I know the terrible confusion of expense but

let me tell you, it is well worth it. I do so regret that people will go to the South of France or some seaside resort, rather than view the beauties of their own Canadian Rockies and of Vancouver Island."

Lady Byng described her first view of the Rockies. "It was so great an inspiration. I cannot convey the beauty and wonder of that undulating line rising out of the mist; that endless, unending chain of majestic mountains and the valleys below in colours of aquamarine and emerald."

The opinion of Her Excellency regarding Western Canada is not that of a mere passerby. With the Governor-General she has been all over the country, going by motor where the rail and river do not penetrate.

"There are those," said Lady Byng, "who visit Canada landing at Quebec, coming on to Montreal, proceeding to Ottawa, and Toronto, who have gone away giving their view on Canada. Such views are always defective even if sometimes they are not wholly unfair and unjust. Canada's business is in the west. It is the west that is the life of the country, and the attitude so admirably taken by the wife of the Governor-General should speed the movement and give it wider impetus."

In our Dominion different localities have different interests and problems and nothing but a close and sym-

Burns Re-Elected Mayor

(Continued from Page 1)

For School Trustees

John S. Rogers - 204
Thomas Johnston - 197
Alex. MacKinnon - 183
Mrs. McLeod - 163

The first two elected.

The composition of the new council for 1926 is as follows:—Mayor, W. J. Burns; Councillors, Geo. Pattinson, S. Moores, J. Moores, J. Rushton, Alex. MacKinnon, and Thomas Johnston.

School Board—W. H. Hayson, Major Hyslop, J. O. C. MacDonald, Thomas Johnston, and John S. Rogers.

Further Survey of Southern Areas.

Further surveys of certain areas in the south-east of the province with a view to making these more productive will be made by a special board named by Premier Brownlee, and which will co-operate with the federal government in this work. The members of the board are E. J. Fream, of the utilities board; V. Meek of Calgary, and Z. McIlmoyle, assistant deputy minister of agriculture.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF ANNIE ONDRI'S late of the Town of Coleman in the Province of Alberta, Widow, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named Annie Ondri, who died on the 1st day of December, 1925, are required to file with Messrs. Gillis & Mackenzie, Barristers, Alberta, the undersigned Solicitors for the Executors, by the 28th day of March, 1926, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which due notice has been so filed or which have been brought to their knowledge. DATED this 3rd day of February, 1926.

GILLIS & MACKENZIE
Solicitors for the Executors,
Barristers, Alberta.

24-2t.

Want Coal Rates Inquiry

A determined effort to secure an inquiry by the railway commission into the question of freight rates on Alberta coal to Ontario and other eastern points, will be made by the Provincial Government. Under instructions from Premier Brownlee, S. B. Woods, special counsel for the government and A. Chard, traffic supervisor, have left for the east and will take up the question of the inquiry with the Ontario government and fuel commission, with a view to making an appeal for an order for the inquiry. The general freight rates investigation will open this month.

Here and There

According to official figures issued by the Redemptorist Fathers about 300,000 pilgrims visited the famous Ste. Anne de Beaupre shrine during the season of 1925. Thirteen countries were represented. Of the number mentioned, 145,000 came by car and the remainder by train.

Seven Americans, touring the world on the Canadian Pacific liner "Empress of Scotland," welcomed the New Year from the top of the Great Pyramid in Egypt. Four young ladies and the captain of their party camped on the sands of the Sahara and climbed the pyramid, "for a little excitement."

Two new steamship lines have made Halifax a port of call this year, and during the first six months of the year the increase in ship tonnage was over one million tons. For the ten months of 1925 the increase in ship tonnage, compared with the same period last year was over 1,000,000.

Canada's exports to Soviet Russia have increased threefold since the outbreak of the war, and during the past twelve months. Trade figures available show that in the twelve months ending October 31, Canada exported goods valued at \$14,000,000 to Russia, as compared to \$48,000 for the preceding twelve months.

Four international sporting events are to be held in Quebec in February. There will be the snow-shoe races, in which 3,000 will take part, including 1,000 men coming from the State of Maine; a hockey match between the Sons of Ireland and the Dartmouth College team; the Dartmouth Curling Bonspiel; and the International Dog Sled Derby.

George Rollin, yard agent at Place Viger Station, Montreal, retired under pension arrangements on January 1, 1926, after forty-six years of service with the C.P.R. He entered the employ of the Company as messenger at Hochelaga, now called Place Viger Station, on April 24, 1879. J. A. S. Racicot has been appointed to fill Mr. Rollin's position.

Four students from British Universities, comprising the British Imperial Debating Team, are now in Canada meeting a number of Canadian university and college debating teams in a worthy battle on the merits of "The Geneva Protocol and the League of Nations." The "Degeneracy of Western Civilization," and "The Singapore Base."

From 40,000 to 50,000 British emigrants will come to Canada under the new cheap passage arrangements made by the Canadian and British Governments and transportation companies. Hundreds of inquiries have already been received from those anxious to benefit by the new plan and among them are many from domestic servants.

Twenty prairie chickens were interviewed in Montreal recently and cast infinite scorn on the East. They hopped about in great excitement at meal time. The interviewer asked, "Take you a long time to pick up as good seats out West at this time of year, eh?" A chorus of shrill voices answered disdainfully, "Tut-tut-tut." They were shipped out of the country by Dominion Express, for contempt of the East.

From August 1 to December 31, 1925 inclusive, a total of 201,970, 804 bushels of grain were marketed through Canadian Pacific western lines. Of this amount there were 164,191, 996 bushels of wheat and 37,778,804 bushels of other grains. Loadings for the same period were 124,649 cars of grain containing 182,074,850 bushels as compared to 85,889 cars for the same period of 1924, containing 121,618,561 bushels.

Here and There

H. B. Beaumont, assistant steamship general passenger agent, has been appointed assistant to the steamship passenger traffic manager of the Canadian Pacific Steamships, according to recent advice at the headquarters of the company.

Canada's agricultural growth during the past quarter of a century is well illustrated by figures compiled by the Dominion Government, which show that during the past year field crops had an estimated value of \$946,166,000, as compared with \$196,673,000 in 1900.

Production on Nova Scotia farms in 1925 amounted to approximately \$40,420,000, as compared with \$36,435,000 in the previous year. Items making up this total were: Dairy, \$10,200,000; livestock, \$2,200,000; field crops, \$18,700,000; poultry products, \$1,220,000; fruits and vegetables, \$8,000,000.

A railway car, originally built as an observation car for the Canadian Pacific Railway, was used as a "chappelle ardente" and funeral coach to transport the remains of the late Queen Mother of Italy. This car was used in hospital service during the war and was sold, with others, to the Italian State Railways after the armistice.

Strange scenes are laid in the Canadian west on account of hard frost and snow. The trees and shrubs are covered with snow forming strange white animals in the Kicking Horse Pass region. A number of photographs were taken recently in this neighbourhood showing grotesque and terrifying figures in the form of prehistoric animals.

Her Excellency, Lady Byng, wife of the Governor-General of Canada, speaking at Ottawa recently, gave a vivid description of the scenic beauties of the Canadian Pacific Rockies. She advised Canadians to see Canada first and get to know this country and something of the lives of the people who live in its various parts.

Owing to the cheap hydro-electric power available, the American Cellulose and Chemical Company to locate at Drummondville, Quebec, very shortly. The Canadian company of the same name, the Canadian Cellulose and Chemical Company, is understood, and the output will consist of rayon and artificial silk. About \$7,000,000 will be used for buildings and plant equipment.

One hundred all-steel 75-ton ore cars ordered by the Canadian Pacific Railway from the Canadian Car and Foundry Company, have now been completed and are ready for delivery. Each of the cars has a capacity of about eighty tons in a holding content of 1,230 cubic feet, and the wheels are of solid wrought steel. The cars will be largely used in the Suburby district.

At least 600 boys will pass through the Burnside Lodge, the Western Ontario distribution centre for the Canadian Pacific Railway farm workers under the Salvation Army juvenile farm labor system during 1926, according to Adjutant Leck, chief of the lodge. Adjutant Leck also stated that the first party, numbering fifty, have all been spoken for, although they are still on their way from England.

Cases of automobiles driven directly at trains in the course of traversing a level crossing during the first four weeks of 1926 were increased to four, or at the rate of one a week, when an auto truck struck the leading car of seventeen cars passing over the Yonge Street crossing at Toronto. The third price for carelessness went to an autobus driver at Hull, Quebec, who drove his car through both gates of the Chelsea Road level crossing, in the west end of this city.

High Average of Alberta Oil Wells.

In comparison with the average production in other oil fields of the world, Alberta oil wells now producing show a high average. The Royaltie well south of Calgary in the Turnar Valley field, known as the world's richest oil well, is producing 400 barrels a day of almost pure naphtha, while wells in the Wainwright field, east of Edmonton are producing from 80 to 100

barrels a day. This compares with an average of 6.59 barrels in 1925, 915 wells in the United States in 1924, with an average of 55.53 in California, of 20.9 barrels in Texas, of 8.32 barrels in Oklahoma, of 20.63 in Montana, Rocky Mountain area, of 41.84 in Wyoming.

Here and There

Sawn lumber production in Nova Scotia during 1925 totalled 300 million feet, according to the provincial government statistics. Of this quantity 176 million feet have been exported.

Canada's mineral output for 1925 is estimated at \$228,440,000, as compared with \$209,585,406 for 1924. The previous record was for 1920, \$228,440,000, when metal prices were about 35 per cent. higher than in 1925.

There are 4,045,760 acres of homestead lands in Manitoba, in a radius of 20 miles from railway lines. In all there are 25,286 quarter sections, or sufficient to settle 20,000 families, the bulk of the land being in Eastern Manitoba.

The value of wheat delivered at Western Canadian points from August 1 to December 15, 1925, was \$338,500,000, representing an average cash return to farmers of over \$1,300 per acre. This is a new high record and the returns are greater for the four and a half months than for the entire preceding year.

According to information at Canadian Pacific Railway Headquarters at Montreal, the Canadian curlers who went over to Scotland on the C. P. liner "Montrose," are touring the British Isles, and are well pleased. The Canadian defeated Strathmore and Loch Leven at Edinburgh. J. G. Macdonald, of Fort William, was still unbeaten.

The little company of "The Three Little Maids," an English musical comedy starring the famous British comedian G. P. Huntley, arrived at the C. P. R. Windsor Station, Montreal, recently, and are giving themselves round an angel for a novel photograph. The show is due in Ontario during the months of February and March.

A settlement, to be known as the Clan Donald colony, comprising 100 families and covering 30,000 acres of land, will be established near Vermilion, Alberta, this spring, through joint contract entered into by the Canadian Pacific Railway, the Western Settlement Committee and the Scottish Immigrant Aid Society. The railway has purchased the land and the Scottish Immigrant Aid Society is to secure the immigrants.

According to G. A. Harcourt, Secretary of the Soldiers' Rehabilitation Committee at Montreal, fine work has been done in the placing of many returned men in good positions. There are still about 80 returned soldiers, married and living in Montreal, who are out of work, but many of these will be placed in the model city of Arvida, which is being constructed by the Aluminum Company of America in the Lake St. John district in Quebec.

Alfred H. Devenish has been appointed manager of the Royal Alexandra Hotel, Winnipeg, to succeed S. F. Pierce who has gone to the Vancouver Hotel, according to an announcement by the Canadian Pacific Hotel Department. Mr. Devenish has joined the Canadian Pacific Hotel Department in 1912, and was later accountant and assistant manager at the Place Viger Hotel in Montreal. He will leave the Algonquin Hotel in St. Andrews, N.B., where he has been manager, to go to Winnipeg.

A wide and distinguished galaxy of speakers from Great Britain, France and the United States is announced for the third triennial National Conference on Education, to be held in Montreal April 6 to 9 next. Among those included are: The Dukes of Atholl, Parliamentarian; the Hon. J. H. Macdonald, Minister of Education, St. Henry's, Wales; Dr. J. H. Macdonald, Minister of Education at Paris; His Grace, Mr. Alfred, Archbishop of Paris.
